Cloud Migration with Unlimited Risk Coverage

## Continuous Security, Compliance, and Automation

As organizations accelerate their cloud adoption, security teams are forced to grapple with a rapidly expanding attack surface and an environment that's become increasingly dynamic and challenging to secure. They are quickly discovering that existing solutions don't provide the unified risk view necessary for today's challenges. Existing solutions only cover exclusively on-prem or cloud, but not both. As teams work to secure the ever-growing attack surface, it's important to remember that the continued risk management of on-prem infrastructure and apps should remain front of mind. The future of risk management is seamless coverage, across your entire environment.

Rapid7's Cloud Risk Complete offer unifies on-prem risk management, cloud security, and application security testing with a practitioner-first approach. Native automation powered by seamless integration into existing tooling and processes results in the elimination of manual workflows and unleashes the teams' potential to work collaboratively and at optimal efficiency. Up-to-the-minute reporting unlocks a continuous and comprehensive view into your organization's risk posture for all stakeholders.

A modern solution that empowers organizations to securely accelerate cloud adoption while simultaneously managing risk for on-prem infrastructure and applications. Without added cost or compromise.

ONE SUBSCRIPTION. COMPLETE COVERAGE.

Secure your cloud environment and receive unlimited coverage for on-prem vulnerability management, cloud security, application security, and S.O.A.R. (Security Orchestration, Automation, and Response) – providing complete protection for cloud, on-prem infrastructure, and applications.

Unlimited Risk Assessment

Accelerate risk assessment with the right solutions, purpose-built for each environment. Secure highly ephemeral, cloud-native apps, and your entire on-prem footprint with a single subscription.

Complete Visibility

Cloud Risk Complete unlocks a comprehensive view of risk across your applications, cloud environments, and on-prem infrastructure.

Increased ROI

Extend on-prem infrastructure and applications budgets to include cloud security with a single subscription. Recognize immediate value with experts who will get you up and running fast.

Onboarding

Cloud Risk Complete includes a dedicated onboarding success manager, along with deployment services.

The right tools for the job

Lack of coverage and confidence make it difficult to secure the cloud with traditional VM tools. Rapid7 takes a different approach to thinking about risk management. Cloud Risk Complete brings together our best-in-class cloud vulnerability assessment, cloud security posture management, automation and cloud detection and response with our industry leading vulnerability management and application security capabilities. A solution purpose-built for responding to both the breadth and depth of your business' security needs.

An all-in-one subscription for complete coverage and readiness

Risk is pervasive; your security solutions should be too. As you migrate to the cloud, maintaining your entire infrastructure often results in trade-offs when determining which risks to cover. Cloud Risk Complete stands apart from the pack by bringing together cloud adoption plus unlimited coverage for your traditional infrastructure, applications through a single subscription. Unlimited ecosystem automation enables your team to collaborate more effectively, improve the efficiency of your risk management program, and save time. The biggest bang for the buck, with zero tradeoffs to achieve complete coverage.

Business evolution that drives efficiency and results

Eliminate multiple contracts and vendors that are stretching budgets. Rapid7's Cloud Risk Complete offer provides you a singular vendor that has industry leading solutions across cloud environments, applications and on-prem infrastructure. Comprehensive risk coverage across your business that provides higher return on investment, without compromise.

Tailored Onboarding Services Included

Deploy with confidence and optimize your security program with Rapid7's Onboarding services. Inclusive of deployment services, Rapid7's Onboarding is designed to support your business on your journey. A single point of contact is dedicated to you and your team, bridging the pre-to-post sales transition, to ensure your security goals are met and outcomes achieved.

What's included with the Onboarding Services?

- A dedicated Onboarding Success Manager to guide you through onboarding, partnering with you and your team throughout the experience
- White-glove deployment services ensure products are configured and deployed properly

Securing your cloud environment with Rapid7 includes:

- Licensed and full-featured cloud security
- Unlimited vulnerability management to uncover risks early
- Unlimited dynamic application security testing to assess apps
- Unlimited ecosystem automation workflows to reduce risk in the cloud
- Onboarding to ensure your security goals are met and outcomes are achieved

About Rapid7

Rapid7 is creating a more secure digital future for all by helping organizations strengthen their security programs in the face of accelerating digital transformation. Our portfolio of best-in-class solutions empowers security professionals to manage risk and eliminate threats across the entire threat landscape from apps to the cloud to traditional infrastructure to the dark web. We foster open source communities and cutting-edge research—using these insights to optimize our products and arm the global security community with the latest in attacker methodology. Trusted by more than 11,000 customers worldwide, our industry-leading solutions and services help businesses stay ahead of attackers, ahead of the competition, and future-ready for what's next.
